

## **Dmeria™ Vet** Diclazuril INN Oral Solution

### Description

**Dmeria™ Vet** is an oral solution for the prevention and treatment of coccidiosis in poultry, turkey, calf and goat. It is a broad spectrum coccidicidal drug acting against all types of *Eimeria sp.*

### Composition

Each mL solution contains Diclazuril INN 25 mg.

### Indications

**Dmeria™ Vet** can be used for the prevention and treatment of coccidiosis poultry, turkey, calf and goat caused by the following species:

Poultry: *E. tenella*, *E. brunetti*, *E. acervulina*, *E. maxima*, *E. necatrix* & *E. mitis*.

Turkeys: *E. adenoides*, *E. meleagrimitis*, *E. meleagridis*, & *E. gallopavonis*.

Calves: *E. zuernii*, *E. bovis*, *E. alabamensis*.

Goats: *E. arloingi*, *E. ninakohlyakimovae*, *E. caprina*, *E. alijevi*

### Mode of Action

**Diclazuril** belongs to Benzene Acetonitriles group. **Diclazuril** is a potent anticoccidial drug that is effective against all *Eimeria* species. **Diclazuril** is used to preventing & controlling coccidiosis in poultry, turkey, calf and goat as well as combat and control the development of resistance to various ionophores. The stage of parasite against which **Dmeria™ Vet** acts in poultry is species specific. Thus in *E. maxima* activity is directed against zygotes and in *E. brunetti* against the gametocytes. It is effective against the later schizont stages of *E. acervulina* and both the schizonts and gametocyte of *E. tenella*.

### Dosage & Administration

1 mL / 25 Kg body weight or 1 mL / 3 L drinking water for 2 days.

Or, as per direction of registered Veterinarian / Poultry Consultant.

### Withdrawal Period

Meat: 0 day

### Contraindications

Do not use in layers producing eggs for human consumption.

### Storage

Store at or below 25 °C temperature, Keep away from light and wet place. Keep out of reach of children.

### Presentation

**Dmeria™ Vet** 10 mL solution: Each carton contains one bottle of 10 mL of **Dmeria™ Vet** Solution. Each mL solution contains Diclazuril INN 25 mg.

**Dmeria™ Vet** 100 mL solution: Each carton contains one bottle of 100 mL of **Dmeria™ Vet** Solution. Each mL solution contains Diclazuril INN 25 mg.
