

AMPROL[®] EP Vet Powder

The Complete & Efficient anticoccidial

Composition

Each gram powder contains:

Amprolium HCl	100 mg
Ethopabate	5 mg
Sulfaquinoxaline	60 mg
Vitamin K ₃	2 mg
Vitamin C	20 mg

Mode of action

Amprolium: As the structure of **Amprolium** resembles to Vitamin B₁, it acts as antagonist of Vitamin B₁. As a result, due to the lack of essential Vitamin B₁, protozoa cannot reproduce and ultimately destroyed.

Ethopabate: Acts as a competitor of PABA which stops metabolism of protozoa & bacteria. Also provides synergistic effect with Amprolium.

Sulfaquinoxaline: Acts as a competitor of PABA which stops metabolism of protozoa & bacteria. Also provides synergistic effect with Amprolium.

Vitamin C: Acts as an anti-stress factor and helps to repair the intestinal cell wall.

Vitamin K₃: Prevents hemorrhage.

Indications

Used to treat below mentioned diseases:

Poultry: Coccidiosis

Cattle: Diarrhea, Calf scour, Bloody diarrhea

Dosage & Administration

Poultry: 1 gm / 2 L drinking water for 5 - 7 days.
