

# Nycof™

Guaifenesin USP, Diphenhydramine Hydrochloride USP and Levomenthol BP Syrup

## DESCRIPTION

**Nycof™** is a combined preparation of Guaifenesin, Diphenhydramine Hydrochloride & Levomenthol which is used provide night time relief of cough and chest congestion and aids restful sleep.

Guaifenesin is an expectorant. It works by thinning and loosening chest mucus in the airways, clearing congestion, and making it easier to cough out through the mouth.

Diphenhydramine Hydrochloride is an antihistamine. It is used to treat sneezing, runny nose, watery eyes, hives, skin rash, itching & other cold or allergy symptoms, and helps to sleep.

Levomenthol has local anaesthetic & decongestant properties. It helps to breathe more easily by relieving congestion.
